香港民意研究所經理 (研究及實作) 李偉健解釋：「隨著疫情數字在過去週末期間回升，今日的『限聚指數』明顯下跌至8.7，而分別有42%和41%市民認為現時限聚令太緊和太鬆，整體大致回到三月中水平。疫情反覆，香港民研上星期五開始進行第八次基準調查，完成後會更新『限聚指數』的基礎運算，以更準確反映政府最新政策的民意民情反應。」

Manager (Research and Fieldwork) of HKPORI Frank Lee observed, “As the number of the confirmed cases rebounded over the weekend, the reading of GGPI has significantly dropped to 8.7 today, and 42% and 41% respectively considered the current ban too strict and too lenient, back to the level registered in mid-March in general. In view of the erratic epidemic, we started to conduct our eighth benchmark survey last Friday. Once finished we will update our GGPI calculations in order to gauge people’s new sentiment in response to the new policies.”
